

Botanica

PREMIUM COLD PRESSED JUICE

EACH GREEN JUICE CONTAINS A KILO OF FRUIT & VEGGIES

Botanica's juices are hand crafted by cold pressing fresh Australian whole fruits and vegetables to extract the maximum amount of juice.

We then use Cold Pressurisation (aka High Pressure Processing) to extend its refrigerated life for 65 days.

Our complete end-to-end chilled production and transport process means the vitamins, minerals and enzymes from our fresh fruits and veggies are retained at their absolute highest levels, whilst also ensuring the freshest of taste is sealed within each Botanica bottle.

100% Australian made.

Refrigerated life of 65 days.

Cold Pressure Technology. (HPP). (Never heat treated!)

We only use Aussie farmed fruits and veggies.

HACCP certified.

End-to-end chilled production & transport chain.

BPA free packaging.
